

Good Day:

We are Team HydroBurst, and we need your support. During the Fall 2015 and Spring 2016 semesters we will be working on designing a making a modular remotely operated underwater vehicle (ROV) for our Senior Design project, with the goal of representing the University of Houston at the National and International MATE ROV Competition.

To accomplish our ambitious goal, we need to raise approximately \$4,000 to purchase the materials. A breakdown of the expenditures can be found below:

Estimated Project Budget	
Expenditure:	Cost:
Prototyping	\$800
Frame	\$200
Propulsion System	\$1100
Control System	\$400
Arm System	\$1100
Tether Management System	\$300
Competition Entry:	\$100
Total:	\$4,000

We need your financial support to help meet our goals. All donations are eligible for a tax write-off, and some companies do a matching program that will match your donation at no additional cost to you (<http://www.matchinggifts.com/UH/>). On the following pages you can find guides on how to donate to our team.

We thank you for your donation, and taking the time out of your schedule to help us out. To show our gratitude, all sponsors will be mentioned on our Team website, presentations, and posters.

Sincerely,

The members of Team HydroBurst
